

TANUJ KUMAR YADAV

.NET Developer | BTech – Information Technology

+91 8103698167 | tanujkumaryadav.work@gmail.com | [Linkedin](#) | [Github](#)

Career Objective: Trainee .NET C# Developer with internship experience in designing and developing enterprise applications using C#, ASP.NET Core, ASP.NET MVC, Web API, and SQL Server. Hands-on experience working in Agile development environment, building RESTful APIs, and supporting backend applications. Strong understanding of software development lifecycle, problem-solving.

Education:

BTech in Information Technology

Bansal Institute of Science & Technology | Graduation: 2026 | CGPA: 8.27

Technical Skills:

Languages: C#, SQL

Technologies: ASP.NET, ASP.NET Core, ASP.NET MVC, ASP.NET Web Forms, RESTful Web API.

Databases: Microsoft SQL Server (RDBMS), MongoDB.

Tools: Visual Studio, SQL Server Management Studio (SSMS), Git, GitHub, Postman, Docker.

Concepts: OOPs, SOLID, Agile, SDLC, Entity Framework, ADO.NET, LINQ, Dependency Injection, JWT Authentication.

Experience:

1) Full Stack .NET Developer – Nitsol Consultancy Services, Bhopal

April 2026 – July 2026

- Developed and supported ASP.NET Core Web APIs for enterprise applications.
 - Implemented and optimized CRUD operations using SQL Server.
 - Tested, validated, and documented APIs using Swagger and Postman.
 - Participated in application design discussions and backend architecture understanding.
-

Project Experience:

Mood Magic (Project – Nitsol Consultancy services.) -

- Designed and developed backend services using C# and ASP.NET Core Web API + integrated AWS Cloud Services to the project.
- Built RESTful APIs aligned with business and technical requirements.
- Integrated DynamoDB for storing and managing application data.
- Worked on Developer tools like Vercel, Sentry and Runpod for AI model generation and logging & Monitoring.

E-Life Driver Management (Project – Nitsol Consultancy services) -

- Developed using C#, ASP.NET Core Web API, and DynamoDB.
 - Implemented Project, User Story, Task, and Sub-Task management with complete CRUD operations.
 - Integrated Redis for Drivers allocation and location Update.
 - Built secure RESTful APIs, tested using Postman, and integrated Kafka MSK to the project.
-

Certifications:

- **IBM** – SQL and Relational Databases 101 | • **NPTEL** – Database Management System
